REDEFINING CONCEALMENT

Self-securing concealment holsters and accessories.

2011 - 2012 PRODUCT CATALOG

CONCEALMENT PRODUCTS DRIVEN BY OUR CUSTOMER'S NEEDS

Sticky Holsters, Inc., is a self-distributing manufacturer of concealment products. Our first line of products was our standard no-clip IWB and pocket holsters. We are constantly getting feedback from our customers that helps us improve and expand our product line.

Whether it's our many improvements to our standard holster line or our addition of modular accessories or our products geared specifically to our vast userbase of Law Enforcement Officers, we are continually redefining how people carry.

This season we've added magazine pouches, a backup gun pad for LE tactical vests and our AnkleBiter leg rig that turns virtually any holster into a leg holster.

NEW ITEM!!

TURN ANY STICKY HOLSTER INTO A LEG HOLSTER!!

The Sticky Holsters AnkleBiter leg rig is an exciting new modular concealment product from Sticky Holsters. It works in conjunction with Sticky Holster IWB/Pocket holsters - giving you yet another way to conceal carry.

In your waistband, in your pocket and now, securely on your ankle, Sticky Holsters, Inc. offers more ways to wear our unique products. As an added bonus, it will work with many other IWB and pocket holsters, even those with clips.

Using the same self-securing design as our holsters, the AnkleBiter Leg Rig secures to your leg and secures your holstered pistol. It is infinitely adjustable and fits directly on your leg or on the top of a uniform boot. Obviously, it's ideal for small guns, but the size of gun is only limited by the cut of your pants.

Retail Price: \$34.95
